A REALLY BIG SHOW

Pricing wasn't available at press time. Sharp offers a range of flat-panel LCD TVs with screen sizes ranging from 16 to 108 inches. www.sharp.ca

LIGHT-WEIGHT TRAVEL

For those who prefer to travel light, there's Heys' 4WD – 'The World's Lightest Spinner Luggage'. The four-wheel spinner luggage is made from a polycarbonate composite and uses Japanese-made wheels that provide a fluid motion and gliding power. Polycarbonate is the same material used in the making of bullet-proof glass. It is both durable and flexible under stress and flexes to absorb the impact and then afterwards flexes back to its original shape. Another great feature of the Heys 4WD is its expandability – a hardside luggage that expands up to 25 per cent more. It also has a push-button telescopic handle system, and has a fully lined interior with a divider. Comes in three sizes: 20-inch (2.73 kg, 6 lbs) for \$99.97; 26-inch (4.09 kg, 9 lbs) for \$129.97; and 30-inch (5.45 kg, 12 lbs) for \$139.97. www.heids.ca
